WHY THIS PROGRAM

Don't get left behind in AI

The gap is growing between people who have heard of AI tools and people who use them every day to work faster, create more and earn more. Spend 90 days becoming the second kind.

- ✓ Students and freshers who want the AI skills recruiters now expect in every role
- ✓ Working professionals in marketing, sales, HR, finance, operations and teaching
- ✓ Founders, freelancers and creators who want to do the work of a full team
- ✓ Anyone curious about AI — no coding or technical background needed

TOOLS YOU WILL USE, HANDS-ON

HOW THE COHORT WORKS

Live classes, always recorded

Every live session is recorded and available in the AI-enabled LMS, with 24/7 doubt support and mentor guidance.

Runs in your browser

All tools run in the browser, so any regular laptop with a stable internet connection works.

Free plans first

Most modules use free plans. Premium tools are demonstrated live by mentors — at most one or two paid plans if you want to go further.

Monthly New Tool Drop

AI tools change every month. New Tool Drop sessions cover major launches so your skills stay current.

CURRICULUM

Course Syllabus

A 90-day, tool-first roadmap that takes you from your first prompt to building AI agents — covering AI assistants, research, productivity, data analysis, images, video, voice, no-code apps, automation, agents and MCP.

12	AI CAREER TOOLKIT & PERSONAL BRAND	3	9	AI Resume & LinkedIn
13	CAPSTONE PROJECT: YOUR AI EMPLOYEE	4	12	Your AI Employee · Demo Day

Every module ends in a hands-on project — you finish with a portfolio of 15+ real AI builds.

Module details 01-04

ASSISTANTS → RESEARCH → PRODUCTIVITY

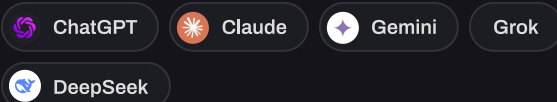

MODULE 01

3 Lectures · 9 Hours

AI Foundations: ChatGPT, Claude & Gemini

- What generative AI is and how chatbots work, in plain English
- Tokens, context windows and why AI “forgets”
- Why AI hallucinates and how to spot it
- ChatGPT vs Claude vs Gemini vs Grok vs DeepSeek
- Free vs paid plans: what you really need
- Voice mode, file uploads and image understanding
- AI safety and privacy: what never to paste into AI

TOOLS

PROJECT

The Big 3 Showdown: one task, three AIs, compare the results

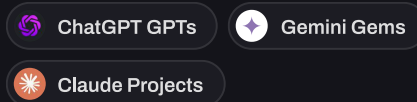

MODULE 02

3 Lectures · 9 Hours

Prompt Engineering & Custom AI Assistants

- Prompt frameworks: role, context, task, format
- Few-shot prompting with examples
- Iterating and refining outputs
- Prompt libraries for everyday work
- Custom GPTs, Gemini Gems and Claude Projects
- Memory and custom instructions
- Giving your assistant your own files and knowledge

TOOLS

PROJECT

Your Personal AI Assistant for your job or studies

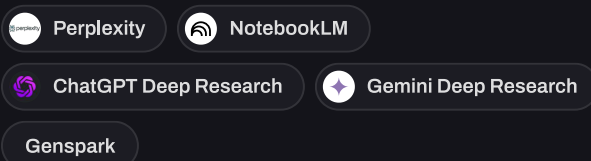

MODULE 03

3 Lectures · 9 Hours

AI Research Superpowers

- AI search vs Google search
- Deep Research modes in ChatGPT and Gemini
- Chatting with your own PDFs, notes and videos
- Turning documents into audio overviews and mind maps
- Fact-checking AI answers and verifying sources
- Market, competitor and academic research workflows

TOOLS

PROJECT

AI Research Report on a topic of your choice

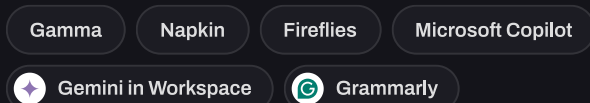

MODULE 04

4 Lectures · 12 Hours

AI for Office Productivity

- Writing emails, reports and proposals with AI
- Presentations in minutes with AI slide makers
- Turning text into diagrams and visuals
- AI meeting notes, summaries and action items
- AI inside Microsoft 365 and Google Workspace
- Translation and multilingual communication
- Building a daily AI productivity routine

TOOLS

PROJECT

Meeting to Deck: notes, an email and a presentation from one messy meeting

Module details 05–08

DATA → IMAGE → VIDEO → VOICE

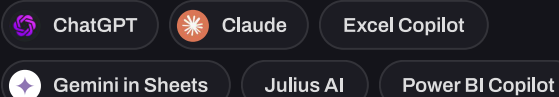

MODULE 05

4 Lectures · 12 Hours

Data Analysis with AI

- Uploading Excel and CSV files to AI
- Asking questions of your data in plain English
- Cleaning messy data with AI
- Creating charts and visual summaries
- Excel formulas and pivot tables with AI help
- Building simple dashboards
- Checking that AI-generated numbers are correct
- Presenting data insights as a story

TOOLS

PROJECT

AI Sales Dashboard with five business insights from a raw dataset

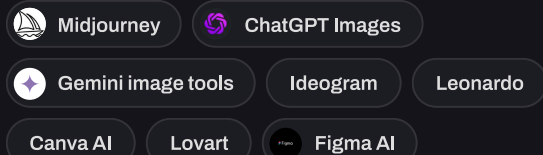

MODULE 06

4 Lectures · 12 Hours

AI Image Generation & Design

- How image models work and how to prompt them
- Styles, lighting, camera angles and composition
- Consistent characters and brand style
- Text and logos inside images
- Editing, upscaling and background removal
- Social media creatives, posters and thumbnails
- AI design inside Canva and Figma
- Copyright, ethics and commercial use

TOOLS

PROJECT

Complete AI Brand Kit: logo concepts, social posts and a poster

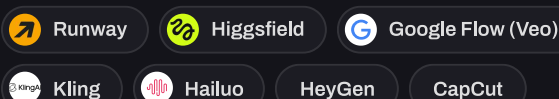

MODULE 07

5 Lectures · 15 Hours

AI Video Creation

- Text-to-video and image-to-video
- Writing video prompts and AI storyboards
- Camera motion, cinematic effects and transitions
- Keeping characters consistent across scenes
- AI avatars and talking-head videos
- Short-form reels for Instagram and YouTube
- Editing, captions and sound in CapCut
- Deepfakes and responsible use

TOOLS

PROJECTS

Cinematic AI Ad Film (30–60 seconds)
AI Avatar Explainer Video

MODULE 08

3 Lectures · 9 Hours

Voice & Music AI

- Text-to-speech and realistic AI voices
- Voice cloning, with consent
- Dubbing into Hindi and other Indian languages
- AI music and jingles
- AI podcasts and audiobooks
- Sound effects for videos

TOOLS

PROJECT

Voice-Over, Hindi Dub and Jingle for your Module 7 ad

Module details 09–12

APPS → AUTOMATION → AGENTS → CAREER

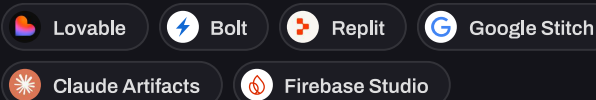

MODULE 09

4 Lectures · 12 Hours

Build Apps Without Code

- What vite coding is: building software by describing it
- Planning an app: features, screens and users
- Building websites and landing pages
- Adding forms, logins and databases
- Designing app screens with AI
- Publishing and sharing your app
- Fixing problems by talking to the AI

TOOLS

PROJECTS

Your Personal Portfolio Website
A Mini App for a small business

MODULE 10

4 Lectures · 12 Hours

Workflow Automation with AI

- What automation is: triggers, actions and workflows
- Connecting Gmail, Google Sheets, Forms and WhatsApp
- Adding AI steps inside workflows
- Zapier vs Make vs n8n: when to use which
- Lead capture and auto-reply systems
- Content and social media automation
- Testing and fixing broken workflows

TOOLS

PROJECTS

Automated Lead Machine
Auto-Posting Content Pipeline

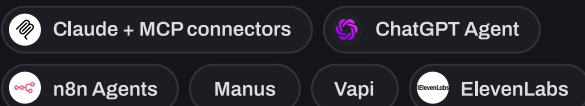

MODULE 11

4 Lectures · 12 Hours

AI Agents, MCP & Voice Agents

- What AI agents are and how they differ from chatbots
- Agent modes in ChatGPT and Claude
- MCP explained simply: connecting AI to your apps
- Connectors for Gmail, Drive, Notion and Slack
- Building an agent in n8n
- Real-time voice agents for calls and bookings
- Keeping a human in control: safety and approvals

TOOLS

PROJECTS

Customer Support Agent
AI Voice Agent that books appointments

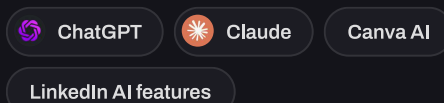

MODULE 12

3 Lectures · 9 Hours

AI Career Toolkit & Personal Brand

- ATS-friendly resumes with AI
- Optimising your LinkedIn profile
- Personal branding and content with AI
- AI mock interviews
- Job hunting with AI
- Freelancing and earning with AI skills

TOOLS

PROJECT

AI-Optimised Resume and LinkedIn Profile

MODULE 13 · CAPSTONE · 4 LECTURES · 12 HOURS

Your AI Employee

An end-to-end AI agent for your own role or business — built with Claude + MCP, n8n and every tool from the course, then presented live at Demo Day.

WHAT YOU'LL DO

- 01 Choosing a real problem from your role or business
- 02 Planning an end-to-end AI solution
- 03 Combining assistants, content, automation and agents
- 04 Testing and improving with feedback
- 05 Presenting your project at Demo Day

CERTIFICATION

Get certified by InfraOne School of AI

Complete your capstone project and earn a certificate that reflects real, hands-on work — not just attendance.

TO QUALIFY

- ✓ Complete weekly assignments
- ✓ Submit required projects
- ✓ Finish the capstone
- ✓ Present at the final Demo Day

PORTFOLIO

Projects you will do

You won't just watch demos — you'll build a portfolio that shows exactly what you can do with AI.

01 Your Personal AI Assistant

A custom GPT, Gem or Claude Project trained on your work or studies

ChatGPT

Gemini

Claude

02 AI Research Report

A cited research brief on any topic, built in under an hour

Perplexity

NotebookLM

Deep Research

03 AI Sales Dashboard

Insights and charts from a raw Excel dataset, no formulas needed

ChatGPT

Claude

Excel Copilot

04 Complete AI Brand Kit

Logo ideas, social posts and a poster for a brand you create

Midjourney

Ideogram

Canva AI

05 Cinematic AI Ad Film

A 30–60 second ad or reel made entirely with AI

Runway

Higgsfield

Google Flow (Veo)

Kling

06 AI Voice-Over & Jingle

Voice-over, Hindi dubbing and an original jingle for your ad

ElevenLabs

Suno

07 Your Own Website or App

A live website or app built by describing it in plain words

Lovable

Bolt

Replit

08 Automated Lead Machine

A workflow that captures leads and replies automatically

Zapier

Make

n8n

09 AI Voice Agent

A phone agent that answers questions and books appointments

Vapi

ElevenLabs

10 Capstone: Your AI Employee

An end-to-end AI agent for your own role or business

Claude + MCP

n8n

Unlock 5+ more projects inside the LMS.

TOOLKIT

Tools you'll master

Work hands-on with the AI tools companies and creators use today, across every format: text, research, data, images, video, voice, apps and agents.

AI assistants

Research

Productivity

Data analysis

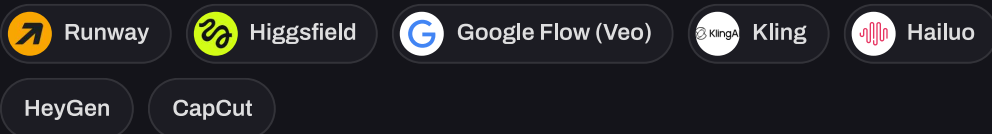

Image & design

Video

Voice & music

No-code apps

Automation

Agents & MCP

...and many more tools.

MENTORS

Learn from **industry experts**

Practitioners who build and ship this stack for a living — reviewing your work every week.

SHUBHAM JAIN

Data Analytics Mentor

Consultant · Catastrophe Risk Modeler · Ex-WNS · EXL

Guides learners on dashboards, analytics workflows, business insights and project thinking.

SQL

Python

Power BI

AI/ML

OUTCOMES

What learners say about project-first learning

Reviews from across InfraOne School of AI cohorts.

“The Data Analytics with AI cohort changed how I approach problems. SQL, Power BI and Python felt overwhelming at first, but the mentors broke everything down with real datasets. My capstone project became the centrepiece of every interview I gave.”

Shubham Kumar

Software Developer @ Fujitsu

“Every week we worked on live business data, no toy datasets. Pairing Python with AI tools for analysis made my research twice as fast. InfraOne's mock interviews gave me the confidence to crack my analyst role.”

Aryan Verma

Research Analyst @ ISOURCE

“I joined to understand data-driven hiring. The cohort taught me dashboarding and analytics I now use daily to track pipelines. The instructors were patient with non-tech folks like me — that made all the difference.”

Shubhadeep Nandi

Talent Acquisition @ Prokatchers

“From Excel basics to AI-assisted analysis workflows in twelve weeks. The pace was intense but structured. What I valued most was detailed feedback on every assignment — it never felt like a recorded course.”

Utkarsh Sinha

Research Analyst @ Authentix

FREQUENTLY ASKED QUESTIONS

Do I need a technical or coding background?

No. Built for students, professionals, founders and creators. If you can use a laptop and the internet, you can join.

Do I need an expensive laptop?

No. All tools run in the browser, so any regular laptop with a stable internet connection works.

Do I need paid subscriptions for all the tools?

No. Most modules use free plans. Premium tools are demonstrated live; at most one or two paid plans if you want to go further.

What will I build during the program?

15+ projects — an AI assistant, data dashboard, brand kit, AI ad film, website, automations, a voice agent and a capstone AI employee.

What if a tool changes or a new tool launches?

AI tools change every month. Monthly New Tool Drop sessions cover major launches so your skills stay current.

Will I get recordings and mentor support?

Yes. Every live session is recorded in the LMS, with 24/7 doubt support and mentor guidance.

Will I receive a certificate and career support?

Yes — a certificate on completing the capstone, plus resume, LinkedIn and interview preparation in Module 12.

Work faster. Create more. Earn more.

Spend 90 days mastering 40+ AI tools and building 15+ real projects — from your first prompt to your own AI employee. No coding needed.
